

Accelerated Reader Update

Parents can now monitor their child's AR progress from home in one of two ways.

- 1) You can obtain your own parent AR ID. At the Renaissance Place Homepage, <https://hosted47.renlearn.com/158035/>, you need to select the parent option. Below the login information you select request parent/guardian access, and fill out the form. I attempt to remember to check this feature once a week, and then create an ID and password for you. I will e-mail you the information when it is completed. What is nice about this option is that you can view all your children's information by entering one ID and password.
- 2) The newest way is using home connect. With this feature you or any person with an e-mail address that you designate can receive an e-mail with information on the last AR test your child took. To use this new service, you need to go to the website <https://Hosted47.renlearn.com/158035/HomeConnect/Login.aspx>. You then need to enter your child's user name and password. Then you click email setup. Here you enter the information of the people who will receive e-mails on each AR test your child takes. If you have any questions on any of this, please contact Julie Shea at jshea@allsaintschurch.com.
